click on the tabs below for information

2.

HEALTH REMINDERS

For your child's comfort and out of consideration for the other children in the class, please keep your child home if he/she has a contagious disease or show symptoms of illness including fever, vomiting, diarrhea, conjunctivitis (pinkeye), persistent coughing, green nasal discharge, evidence of contagious infestation (i.e., lice). Children should be free of symptoms for 24 hours before returning to school. If your child has allergies that may cause a clear, runny nose, you must have the doctor give the child something to dry him/her up while at school. Teachers, with the approval of the director, may refuse to accept children who exhibit any of these symptoms.

3.
